

WHAT'S WAGGIN'

In the Clinton County Humane Society

PET CONNECTION Meet Maximus!

Maximus, 3-year-old Bull Mastiff mix, is a big handsome fella. He likes people, but his 80-pound size, energy and strength make him not well-suited for little children. He is a happy guy who likes to ride in the car and be outdoors. He knows “sit” and “down.” He is usually good with other dogs, but is a little territorial with toys and food sometimes. Maximus would do well in a home with an individual or a family with older children. He is up-to-date on shots, neutered, heartworm checked and micro-chipped. If Maximus sounds like the guy for you, fill out an application at www.ccilhs.org or pick one up at the CCHS building at 1301 Apple Lane, Breese.

CCHS has other wonderful pets. Available dogs include **Charley**, Black Lab; **Harley**, Black Lab mix; **Bugsy** and **Dotty**, Puggles; **Maximus**, Bull Mastiff mix; **Trinity**, Staffordshire; **Mory**, Rat Terrier; **Toby**, Shih Tzu; **Ollie**, Beagle; and puppies **Birch**, Staffie mix; **Tris**, Terrier mix. Dogs are fostered with families and can be visited by appointment or at the next Meet and Greet.

All CCHS pets are vet checked, up-to-date on shots, spayed/neutered and micro-chipped. Dogs are heartworm checked, and cats are also feline leukemia negative and litter box trained. If you are interested in adopting a CCHS pet, fill out an application online at www.ccilhs.org or pick one up

at the building. You can call 526-4500 or email ccilhs@ccilhs.org or ccilhs@gmail.com for information or an appointment. Check out our pets on www.petfinder.com or www.adoptapet.com.

SPRING IS FINALLY HERE!

Spring is here, and it's time to tend the landscaping and get the flowers planted.

As pet owners start their planning, they should remember that many lovely plants and flowers are toxic to pets.

Generally the smaller the pet, the more harm the plant can cause.

Sago palm, especially the seeds, can kill pets.

Lillies cause kidney failure and can kill a cat in only three days!

Oleander, foxglove and lily of the valley slow down heart rate and can be fatal.

Rhododendrons, azaleas and laural can cause vomiting and seizures.

Periwinkle causes vomiting, diarrhea, seizures, coma and even death.

Many plants including Aloe, Amaryllis, Holly, the Hibiscus family, Hyacinth, Iris, Daffodils, Tulip bulbs, Wisteria, Chrysanthemums, Ivy and many more plants cause symptoms, ranging from vomiting, diarrhea, abdominal pain, tremors, depression, lethargy, coma and death.

For an extensive list of plants toxic to pets go to www.asPCA.org.

While you're at it, watch what mulch you choose for landscaping.

Never use cocoa mulch, which can be lethal even to large dogs.

It is chewy and smells like chocolate, so it attracts pets, but contains the same toxin as chocolate.

Even non-toxic mulch can cause intestinal trouble and blockage if eaten, so make sure to keep your pets away from mulch.

Keep pets away from fertilizers, pesticides and compost as well, as they may harm your pets.

The majority of pets are not likely to eat these plants and materials, but puppies, kittens and some adult dogs will eat anything.

Put materials and plants where pets can't get to them, not in the areas where they play, and

supervise pets when they are around the landscaping and flowers.

Be sure to check before you plant this spring and make sure your landscaping beautiful flowers and landscaping aren't deadly to your pets.

VOLUNTEERS NEEDED

CCHS is entirely run by volunteers. We hope you will find a little time each month to volunteer at CCHS and make it possible for us to keep our building open and to care for our cats that live there or our dogs that visit. Be a part of the process!

Check your calendars and contact ccilhsvolunteer@gmail.com or call 526-4500 if you find a little time available, especially evenings from 5:30 until 7:30 pm.

If someone is already listed for a time you are available, feel free to join them. The work is easier if you share it.

Feel free to stop by anytime and ask what you can do to help.

VOLUNTEERS ALSO NEEDED...

CCHS needs volunteers for other services besides the building.

Extra handlers and helpers are always welcome at Meet and Greets, parades and other CCHS events.

CONSIDER FOSTERING

Fostering is a big commitment, but worth the effort. The more fosters we have, the more dogs we can help.

Fosters house and care for pets, take them to vet appointments, and bring them to CCHS events and Meet and Greets. Whenever possible, fosters help with basic training, including housebreaking, crate-training, leash walking.

If you have room in your home and your heart, volunteer to foster and see how good it feels to help pets find loving homes.
